
1. Glanllynfi Garth Wind Farm - ‘One Sheet’ Summary

1.1 Indicative turbine locations and parameters

This document provides the ‘one sheet’ summary of the indicative turbines for the Glanllynfi Garth Wind Farm (‘the Proposed Development’), in line with Planning and Environment Decisions Wales (PEDW) Developments of National Significance (DNS): procedural guidance.

1.1.1 Grid references: Easting and northings

Turbine ID	Easting	Northing
1	286850	193130
2	287420	192958
3	286684	192694
4	287410	192540
5	289446	189945
6	288914	190378
7	288694	189428
8	288422	189842

1.1.2 Turbine height

Maximum height to blade tip of 180m.

1.1.3 Hub height

A hub height of up to 105m.

1.1.4 Rotor diameter

Rotor diameter of up to 150m.
